Dear Paul:

I would like to take the opportunity to thank you for the excellent work your company did for us recently. Hatch & Parent has engaged paperlessUSA on several projects since 2001 to assist in major litigation and client support matters.

Most significantly, paperlessUSA assisted with creating a web-based asset inventory for one of our major clients. PaperlessUSA expertly accumulated and integrated a significant volume of resources, organizing it into an easy-to-use visual format that is now available securely over the internet to numerous users within our firm, our client and support companies via encrypted username and password on a 24/7 basis. Accessing the data is just like surfing the internet with key information just a point and click away. Both our client and we are very pleased with the inventory results.

Beyond the computer expertise possessed by your company, I especially appreciated that our primary contact with paperlessUSA was always available to us via telephone and email. Your professional staff was always very responsive and willing to work the sometimes long hours it took for us to finish this large product in a relatively short time period.

I would strongly recommend paperlessUSA to others as a company with the highest level of technical expertise and client dedication.

Very truly yours,

A handwritten signature in blue ink, appearing to read 'C. Strickland'.
